Attorney's Docket No.: 10417-120001 / F51-
143214M/TOM

Amendments to the Specification:

Please replace the abstract at page 39 with the following amended abstract:

In the driver for driving display having an anode driver, a cathode driver, and memory portions of a semiconductor device of the invention, anode driver regions connected to the memory portions are laid out equally in the chip, and SRAMs ~~and~~ are arranged equally in the vicinity of each of anode driver regions so that drawing of wiring becomes easy and size of the chip is miniaturized.
